

BOLTON CENTRAL SCHOOL

26 HORICON AVENUE
BOLTON LANDING, N.Y. 12814

November 5, 2021

Dear Bolton Central School District Community,

The Bolton Central School District has been notified that an elementary student has recently tested positive for COVID-19. The district has been in communication with Warren County Public Health and contact tracing has been completed. The student has been quarantined and out of the building since last week. Warren County Public Health has determined that no additional quarantines are required.

Warren County Public Health remains concerned with the increased number of positive cases in Warren County as the Delta variant remains highly contagious. We share in this concern and urge our community to remain vigilant. Should your child exhibit symptoms, do not send them to school and seek medical attention.

Please note that the Health Insurance Portability and Accountability Act (HIPAA) as well as other privacy laws prohibit us from disclosing or confirming any personally identifiable information. We will not identify anyone who has tested positive.

We thank you for your continued support.

Sincerely,

Michael J. Graney
Superintendent
