5. **COMMITTEE REPORT**

- A. On behalf of the Facilities Committee, Mr. Schoder and Mrs. Pfau updated the group on the condition of the Lower Field as advised by Mr. Jim Girard of Turf Management. In order to help the roots become more established by the August 18 Fall Sports start date, all activities on the Lower Field will be prohibited. Notification has been posted at all field entry points and on all fencing.

Mr. Schoder added that there have been areas in the corner of the field where water has been pooling. The use of an environmentally sound dye was used to determine the path of water drainage. In doing so some unrealized water run off paths were discovered to run into a pond on a neighboring property's pond, stream, and

subsequently, into Lake George. All appropriate agencies were notified and advised of the action and its outcome. The Facilities Committee explained the need to better determine run off of the District property. Although the District is not legally bound, the desire to be proactive and a positive member of the Bolton Community, the Facilities Committee, in conjunction with Board support would look to AES Northeast for a proposal to perform an evaluation of the BCSD Roof Drainage system.
